How bright was their dving What rashness of glory, The rainbow defying, On mountain sides lying, In valleys reposing! What wonderful story

Their bravery told In scarlet and gold; But wan with the cold They are falling and flying

Yet, once despairing, A low voice is singing: "They have their repairing; Far down in the earth Is springtime preparing Her wonderful birth, Her ever upspringing, Reiterant mirth But for thee, but for thee Sole leaf on the tree, All gone before thee. What springtime shall be? There remaineth for all -Rose Terry Cooke.

MADDY.

"At it again!" muttered Farmer Grant under his breath. "I declare, it does beat all! It's a regular hornets' nest! Catch me going in there now!" At that instant the noise broke out anew, and the fresh young voices sounded almost demoniac in the war of words. Then, after a slight pause, some-thing seemed to fall or to be thrown against the wall with great force, and a hrill, feminine voice cried, passionately "Now, suppose that had struck me!" "Then it would have ended you, that's all," was the deep bass reply. "I expect you'll kill me yet," said the

other voice.
"I know I shall. I've been tempted to a thousand times, and if you—" The rest of the sentence was lost, the into another room, and Farmer Grant turned away.

'I tell you what, mother," he said, as he entered his own home and met his comely, smiling wife, "I'm afraid there'll be sore trouble up to Uran's some day. Those two children do quarrel so despritly.' "Poor things,"murmured Mrs. Grant;
"they're to be pitied."
"Well, I don't know as they exactly

are," said the tarmer, hanging up his "He is innocent!" exclaimed a voice on straw hat. "Oh, yes, they are. Just you think of their bringing up. Their father and mother were both drunkards, and when they were alive. there was nothing but too, poor child! And Jed has such a

No: I just wanted to get out of the way. He said he been tempted to ki!l rescue, "Shouldn't wonder. If so, it will be precty bad for Jed, for the folks round about here hate him, and would like to so him shut m for the sake of the com-

see him shut up, for the sake of the community. His influence is terrible, but, Meantime, the quarrel raged fiercely in the miserable house occupied by Jed Uran and his sister. Their parents had been dead three or four years, having

left them for a heritage both poverty and disgrace. Jed supported himself by doing odd jobs for the farmers and whoever would good, and his temper led him into many difficulties.

The cause of this dispute, a portion of which the farmer had heard, was, in the beginning, a triffing one. Maddy served milk to a few families for Farmer Grant, for Mrs. Grant was almost the only personal friend the poor girl had.

The day before a sudden and terrible Grant had detained her, in consequence, till near dark, when Frank Grant, the farmer's oldest son, had happened to meet her on the road and had gone home with her as far as the gate. Now Frank and Jed were mortal enemies. When the latter learned this fact on the following day, through Maddy's irrepressible vanity, that Frank had walked with Maddy, it roused all the latent hatred of his soul, and he The quarrel had nearly culminated. Maddy stood in the middle of the floor, her eyes spankling, and her face the counterpart of a beautiful fury, return-

guage.

At last Jed kicked with great force a pail that stood in the doorway, and it flew to the Opposite side of the wall. bounding up against the window and crashing some of the lower panes. Maddy returned the angry act by hurling a broken case-knife at him; and then seeing him run up stairs, she felt lives, \$500,000; 1871, the greatest fire of that she had made him furious. His pistol was in the room above. For the first time in her life a mortal fear over-

took her.
Hastily bolting the door through which he must return, she pulled down half in value of buildings in city conher sleeves, adjusted her dress, snatched an old sun-bonnet from the wall, caught a day in the woods, berry-picking, she sprang through the kitchen into a little buildings blown up to stop the army destroyed by fire. Portland, Mc., 1866, great fire July 4, one-half of the city burned, fifty patch of ground behind the board of the buildings blown up to stop the army destroyed by patch of ground behind the house, and Here she picked berries, and sang

fragments of merry songs. If now and then a sense of wrong-doing came over

didn't know him, and struck at him; but he didn't mind it. I wonder if it is my fault, "I wish didn't git mad so quick," she added, with a sigh. "I'm always a-wanting to filing it back to him."

Not long after Maddy fell asleen. A lew years ago an American engineer to determine whether the dissection of the Russian government to the feasibility of connecting the Caspian and Black seas by a case which a sigh. "I'm always and the important results that would follow its execution. "And oh, many a time, if it hadn't been for my wicked tongue," she mur-

reling."
As for Jed, he did not concern himself about her sudden departure. Jumping from the window above upon the porch roof, he let himself to the ground, and went off in his usual vagabond fashion. Long after nightfall he came home, nging with him an unfortunate chicken, whose neck he cut clumsily and then cooked the pullet for his supper. The feathers he burnt, partly for fuel, and partly to get them out of the

Supposing that Maddy was at home and asleep, he threw himself upon his bed, and slept till morning; till, in fact, he was wakened by a loud knocking at the door.

It was Farmer Grant who met him, and who recoiled from the appearance he presented, with a look of unmistak-"For mercy's sake, Jed Uran, what have you been doing?" he cried.
"Nothing," said Jed.

"Do you know there's blood on your ands? Whose blood is it, Jed?" asked the farmer, solemnly.

Now the boy had stolen the chicken from Farmer Grant's hen-coop, and the question confused him. "I cut myself last night, I suppose,

milk by six, and now it's almost nine.' startled at the lateness of the hour. sternly.

Jed disappeared, and came down 'She aint there," he mut-

presently, "She aint there, it morning, I tered, "She went out this morning, I night," he suppose. She was here all night," he Farmer Grant stepped inside. There was blood on the hearth—blood-stains on the floor. The farmer kept silence, and went home with a sense of horror upon him, fully confident that the young fel-

low had murdered his sister. As soon as possible news was sent to the authorities, and Jed was arrested and put in confinement. The day passed slowly, but the little community was stirred to its depths at the enormity of the crime probably committed in their

As the time wore on, and Jed persist-ed in his innocence,—while the farmer's testimony seemed to redouble his guilt, of Commerce, 20,000,000 bushels of wheat for Jed, in his terror, had told more than and from 80,000,000 to 100,000,000 bushone lie,—the people became excited. In her sanxiety and fear she went forward wildly and uncertainly and soon becan to run. Just then her foot caught in the Caspian sea is much lower than the should forthwith be killed, and not kept for further use of the same kind unless When consciousness returned she was lying on the ground, the darkness surrounding her like a thick wall. The slightest movement caused her excuciating pain in her head.

The poor girl thought with regret of her miserable home and her evil-tempered brother. It seemed quite likely that she would lie there, alone and uncared for, and die at last in that horrible solitude.

Bitch and Mediterranean, if a communifor further use of the same kind unless in cases where the pain ceases with the water rushing in would eventually raise the Caspian to a level with the Black sea, and in the former there would be a magnificent harbor, secure from enemies. Thus, also, there would be opened a direct highway for steamers from Odessa to the northern shore of Persia, greatly to the commercial advantage of Russia. This enterprise will be one of the vast engineering works of the same kind unless in cases where the pain ceases with the concilusion of the experimentation; that vivisection shall not be permitted as an aid to instruction of in illustration of lectures where the points in question have previously been investigated and satisfactorily settled, nor for the purpose of gratifying mer ocuriosity.

The midnight warsuder should not be been. Bitter tears ran down her cheeks, be one of the vast engineering works of

TIMELY TOPICS A correspondent of the London Echo 12,200,000 souls would be engaged in its cultivation, judging from the number in

France on a like area, instead of 3,000,-000, as is the case of England now. Even a dead dog can be put to a good use, as has been shown in the case of the 5,400 canines that were drowned by the New York city authorities last summer. A shrewd contractor secured and tanned the hides of the dogs, and then sold the dressed skins to glovemakers, who will turn them into dogskin gloves.

The defeat of the Zulus and capture of British power and control. Ere the atmiles along the coast, from the Great Kei river to Delagoa bay, and included what are now Natal and Zululand. The new territory, just subjugated, has an area of about 16,000 square miles, with a population of about 150,000. The climate s healthy, and a large portion of the country is well watered and suitable for grazing purposes.

A correspondent writing to the Chihe said, surlily.

"Where's your sister?" asked the cago Tribune from New Mexico, re-"She's always at the house for ilk by six, and now it's almost nine." which he calls rice or "Egyptian corn," "She's asleep up stairs," said Jed, artled at the lateness of the hour. "Call her, then," said the farmer, sas and Colorado. He planted forty acres where there had not been a drop of rain for eight months, and it germinated and grew, though there was no rain for five weeks thereafter. It grows and thrives where grass or any other green thing is burnt up. Moreover, it is said to be very toothsome and nourishing.

The year 1879 will pass into American history as a year of wonderful agricultural prosperity. The cotton crop is larger by half a million bales than ever the tobacco crop 12,000,000 pounds greater; and the sugar crop exceeds by some 200,000 hogsheads all previous yields. These are crops which belorg almost exclusively to the southern half of the republic. In behalf of the orthern States the excess of products

Reviewing the reports on the Madras (India) famine submitted by Dr. Cornish, sanitary commissioner of that presidency, the commission has arrived at the following conclusions: First, that the same atmospheric conditions which produce scarcity of food produce also epidemic diseases; secondly, that a large proportion of the mortality of a famine season is due more to epidemic disease than absolutely to want of food, although the destructiveness of an epidemic is increased by the fact that people half starving or ill fed are less able to withstand disease; thirdly, that a point in the process of chronic starvation, when nutriment no longer sustains life, is often reached before people can obtain or will seek relief at a distance from their

Some idea of the magnitude of the telegraph business in the United States may be gained from the annual report of the Western Union Telegraph Company, which shows that the company has at present 82,987 miles of line, 211,566 miles wire, and 8,534 offices. During the year 25,070,106 messages were sent. The capital stock of the company is \$41,073,-410, and of forty and a half millions of net income in the last thirteer years, a less than twenty millions have been paid in dividends to stockholders; six real estate, all of greater value for the uses of the company than their cost; and three-quarters of a million remain as

American vines offer a vigorous resistance-more especially in respect to the peculiar formation of the root, the tissues of which are exceptionally thick— to the dreaded plague. On the other hand, it is apprehended that these vines will only be a success in certain portions of France. The failure in the grape

several leading townsmen organized, on a capital of \$2,400, an economic bakery, to furnish bread of the best quality and lowest price to all co-operating. About 400 families, who paid up \$1.25 each, immediately joined. The first year the promoters attempted nothing beyond resold to subscribers twenty per cent. lower than the bakers. When the hard times were over it became a question whether the whole scheme should not be dropped, but at the instance of one very energetic coadjutor, it was carried so triumphantly forward that not only has worth \$8,000 has been erected. From a thousand to eleven hundred families other fire June 28, 1,300 dwellings, 6,000 quality, or having the trouble and in-

convenience of baking at home. very prominently before the American public, scientific investigators in the of vivisection can take just exception to. After declaring itself incompetent to determine whether the dissection of the question, and if they arrive at the conclusion that vivisection is really inary torment. •In particular, it recommends that vivisection shall never be permitted where the dissection of dead material will answer; that wherever that does not defeat the purposes of the experimentation, anæsthetics should be employed, and that paralyzing agencies is a part of the investigation; that as

Bitter tears ran down her cheeks, heavy sobs convulsed her frame. Only for one glance of Jed's face! Only for one touch of his strong hand! He would not leave her there to perish, cruel as he had been.

be one of the vast engineering works of the age, and will require many years for its completion.—Harper's Bazar.

The midnight marauder should not be ban-ished from our dwelling any more quickly than should a cough or cold of any kind be driven from the system. Dr. Bull's Cough Symp quie'ly yet positively places all colds under its control. Price 25 cents.

The Largest Sapphire in the World. A Paris correspondent says: I have says that if the land in England was divided into as small tracts as in France.

a stone that has its history and its pedigree, and is celebrated in the annals of the trade and in the annals of the noted gems of Europe; I have held in my hand and admired beneath the rays of the sunlight the finest sapphire that is to exist. This beautiful and well-nigh priceless stone combines in a ingularly perfect degree the leading qualifications of size, shape, color and vater. In form it is flat oval, being about two inches long by an inch and a half wide. It is cut slightly en cabochon on top and into a multitude of small facets beneath. Its hue is perfect, being a warm, lustrous Marie Louise blue, not so dark as to show black beneath the Cetewayo will open up all Caffre-land to Reitish power and control. Ere the atin a really fine gem of this description weight is three hundred karats, and it belongs to a noble and wealthy Russian family in whose possession it has been for the past two centuries, and it has been placed by its owner in the hands man in whose care it has been left as to the actual value of the stone. He told me that, being, as it was, perfectly unique, no precise value could be set upon it, but that he was inclined to estimate it at some \$400,000. He also show ed me a string of enormous graduated pearls of extreme purity and fineness (the center one was as large as a small cherry) and he told me that the necklace belong-ing to the noble Russian was composed of six similar strings of equal beauty and exceptional size. The great sapphire was mounted to be worn as a brooch, being surmounted with large diamonds of some twenty karats each. Its guarlian informed me that the pendant be onging to this brooch was composed of a large pear-shaped sapphire weighing sixty karats, and set in diamonds. The whole collection of jewels belonging to this one family is worth over \$2,000,000. "There is no such sapphire as that largest one," continued my informant, "even among the crown jewels of Russia. I furnished myself two very fine ones to the empress, each weighing sixty karats.

but they do not compare with this mag-nificent gem." The gentleman who spoke was well qualified to give an opin-ion, as he is one of the few great dia-mond merchants of the world, and is, moreover, a noted expert He it is who was recently sent for by the Russian government to go to St. Petersburg to nake a full estimate of the value of the crown jewels, and he furnishes whatever ornaments in precious stones are purchased by the members of the impe-Why His Hair Turned White. Among the excited crowd that be

sieged the office of the Helena (Montana) Independent for news concerning the Ute outbreak, there stood a tall, nandsome youth of twenty-three, the of Helena. Laefarr was importuned by an Independent reporter to tell "the story of his gray top-knot." He, at the age of nineteen years, was one of the seven packers who left Fort Lincoln to ride with General Custer along the Big Horn. When the fight of that bright but dis-astrous summer morning opened, Lae-farr, with his companions, happened to he three miles away from the command.

ducing the price of bread, which they

horse, and leaping upon the animal's and a half millions paid for interest and principle of bonded debt; more than thirteen millions added to the plant, in the construction and purchase of new lines and stocks in other companies and neck, another cut a deep furrow across his cheek, a third imbedded itself in his cheek, a third imbedded itself in his thigh, and a fourth killed his horse.

The desperate boy shot an approaching Indian and ran for a belt of timber a chosen: President, Victor E. Prolette, of and three-quarters of a million remain as surplus in the treasury.

The desperate boy shot an approaching Indian and ran for a belt of timber a half-mile distant. William Hogg, one of the oldest and most highly r infancy, prominent British physicians have asserted that one-half of the mor-tality of England comes from tubers. tality of England comes from tubercu-lous ailment. Although most common between the ages of twenty and forty, it who was lost overboard in a heavy gale off between the ages of twenty and forty, it occurs at all periods from babyhood to old age. It is generally supposed that consumption is slowly but steadily deold age. It is generally supposed that consumption is slowly but steadily decreasing in consequence of improved hygienic conditions and the like; but the bulk of medical testimony indicates that on the whole it has a tendency to Mrs. Johnson brutally treated. The colored Mrs. Johnso that, on the whole, it has a tendency to increase, unless great care be taken to remove causes unfavorable to public

be less movements, and is said to be provided, by way of defence, with a sharp, venomous tail, which it brings in contact with any object which arouses its anger. Of this reptile the Fort Bend (Tex.) Snagt to holo horrible to be repeated were it not for the circumstantial account given, The facts as stated are these: While gathering berries, a young woman of eighteen, daughter of David Slicer, of Dutch Cross roads on the Little Big Sandy, was attacked by one of these tail compelled the persons who had now come to the poor girl's assistance to keep away. The reptile is then stated to have then made its way, right in the presence of two or three horror-stricken according into the girl's mouth and rapidly represented in the horror was a configuration. people, into the girl's mouth and rapidly disappeared down her throat. Of course death ensued in a few minutes.

NEWS SUMMARY. Eastern and Middle States.

Judd Mann, the engineer, and James Mc-Guire, the fileman of an express train that ran into a treight train at Onreonta, N. Y., were killed and both locomotives badly damaged. William R. Whittingham, D.D., L.L.D., Protestant Episcopal bishop of Maryland, died at his summer residence in Orange, N. J., a few days since, aged seventy-lour years. The business failures in the United States for the first nine months of this year are given in Dun, Barlow & Co.'s circular as 5,320 in number, with liabilities aggregating \$81,054, 940. For the same period in 1878 the number of failures was 8,678, with liabilities aggregating \$197,211,129. The destruction by fire of a six-story brick building in New York, used as a storehouse for grain, entailed a loss exceeding \$100,000. Eighty thousand brick have found a resting

place on the bottom of the Hudson. The schooner Catskill, containing that amount of brick, was run into at night off Newburg by the steamer St. John and sunk. The assembly of governors to arrange the details of the centennial anniversary of the surrender of the English army at Yorktown met for organization in Independ of one of the great diamond merchants of Paris for safe keeping. One of the Rothschild family has offered for it no less than \$300,000, but the offer has been refused. I asked the courteous gentleman in whose care it has been left as to Colonel Lincoln representation in Independence Hall, Philadelphia, a tew days ago. Governors Andrews, of Connecticut; Holliday, of Virginia; Hoyt, of Pennsylvania; Simpson, of South Carolina; Jarvis, of North Carolina; Jarvis, of North Carolina; Jarvis, of Maryland, and Colonel Lincoln representation in Independence Hall, Philadelphia, a tew days ago. Governors Andrews, of Connecticut; Holliday, of Virginia; Hoyt, of Pennsylvania; Simpson, of South Carolina; Jarvis, of North Carolina; Jarvis, of North Carolina; Jarvis, of North Carolina; Jarvis, of Connecticut; Holliday, of Virginia; Hoyt, of Pennsylvania; Simpson, of Connecticut; Holliday, of Virginia; Hoyt, of Pennsylvania; Simpson, of South Carolina; Jarvis, of North Colonel Lincoln, representing Governor Tal-bot, of Massachusetts, were present. Governor Holliday was chosen president of the meeting, and Colonel Lincoln, secretary. There was speaking by Mayor Stokley, Governor Carroll, Governor Hoyt and Governors Holliday, Hall, Jarvis and Simpson. Governors Hoyt, Simpson and Holliday were appointed a committee on resolutions and they recoved accommittee on resolutions and they recoved accommits. simpson and Holinday were appointed a com-mittee on resolutions, and they reported reso-lations which were adopted. The cele-bration was commended, and a committee of arrangements of one from each State, to be nominated by the governors thereof, of which committee Governor Holliday should be chair-man, was advised.

The eighty-four hour walking match in New York, in which the contestants walked or ran fourteen hours each day for six days, was poorly attended. Fitzgerald came in first with a score of 377 miles, and took first prize of \$1,200; Colston made 370 miles and wor \$600; Campana, 363 miles, \$400; Vint, 350 miles, \$300, and Waters 333 miles, \$200. At Saratoga, N. Y., the second trial of Jess Billings, charged with murdering his wife, was postponed by mutual consent until the first Tuesday in January, 1880. Billings wos readmitted to bail in the sum of \$30,000. James H. Riley, of Saratoga, defeated Wellace Ross, of St. John, N. B., in a three-mile scuiling race at Norwich, Conn. William Blaikie, referee in the recent Chau-

tanqua Lake boating affair, has written letters to Hanlan and Courtney suggesting that the difficulty about the payment of the purse be settled by the men actually rowing a nace together on the same terms as before. The trial at Newart, N. J., of Joseph A. Blair, the New York bank teller, for killing John Armstrong, his coachman, at Montelair, resulted in a verdict of not guilty by the jury,

who were out ninety-seven hours before they Mrs. Adele F. Lucas, who demanded \$15,-

000 under the civil-damages act from George Bulwinkle, a Brooklyn liquor dealer, charging that he had in spite of her warnings sold liqu was awarded \$50 in the Brooklyn city court. Three little Pittsburgh girls-Stella, Lilla strange whiteness of whose hair became at once a matter of comment. This young man was John Laefarr, who not long ago hired himself as a ranchman with Charles D. Hard, three miles out probably destroying the sight of the other Mary, the oldest, aged seven, who handled the torpedo, escaped with no more serious in jury than badly lacerated hands.

About thirty farmers and other prominent gentlemen identified with agricultural interests met in the rooms of the Farmers' Club in New York, for the purpose of organizing a national agricultural society. Mr. J. H. Preall called the meeting to order, and announced the objects of the proposed society, which he said we eto provide for meetings of agriculturists, In a few moments after the sound of the combat reached him, a band of sioux sprang from the grass within a Laefarr noosed a roop, place, and for the advancement and protection this country. The plan proof sgriculture in this country. The plan pro-posed is a model of one which existed in the United States before the war, with the addi-

ncluding land under water contains about 11,500 acres.

A fire at Sag Harbor, Long Island, destroyed the Montauk Steam Cotton Mills, entailing a total loss of about two hundred thousand dollars on which the insurance is about eighty.

State for foreign affairs, is dead. 11,500 acres.

lars, on which the insurance is about eighty Western and Southern States.

General Merritt's troops operating against the Colorado Utes have been ordered to return to their proper stations, leaving at the White ordinary agricultural produce in England. The 300,000 hectares under vines, which represented in a great degree the wealth of the department of Herault, are gone. Fortunately, Frenchmen are not in fat years unmindful that lean may follow, or the condition of things would be very serious indeed.

In 1867 France had a very bad harvest, and when bakers' bread rose at Angouseme to fifty centimes the kilogramme, several leading townsmen organized, on croachments are scarcely perceptible.

men plundered the boat and cut it adritt. Assistance was rendered by a passing steamer. I didn't invent it myself; but I am now acting as State agent to dispose of sistance was rendered by a passing steamer.

Frightful abusus of the prisoners in the Mil. waukee House of Correction are reported. It is charged that the bread furnished the continuands of dollars in seeking to invent A Girl's Awful Fate.

The horned stinger of the Staked plains is one of the most deadly snakes in the world, though luckily it is seldom to be met with. It is very quick in its movements and is said to be revised.

General Francis A. Walker, superintendent of the eensus, with a view to securing greater

accuracy and uniformity in the agricultural statistics for the tenth census, has just issued a circular setting forth the aims and wishes of the bureau with regard to the method of arranging such statistics. The census enumeration will begin June 1, 1880, and end on or before June 30, 1880, and all persons engaged in agriculture are desired to make notes from time to time of the quantities and values of their several crops gathered, and the number of acres of land planted, in order that the statements, when made to the enumerators, way he of the highest possible value.

may be of the highest possible value. The forthcoming annual report of the Pay-master-General of the Army for the fiscal year ending June 30, 1879, will say that the re-ceipts of the Department were \$15,358,000, of which amount \$12,700,000 were disbursed, \$800,000 have been deposited, and the balance, \$1,858,000, is on hand.

The annual report of Surgeon-General Barnes will be a very long document, and among other things will show that during the last fiscal year the average number of troops in service was about 21,000 whites and 1,942 colored. The total number of cases of sickness among the white troops was about 3,700, and among the colored about 500. The aggregate number of deaths was: Whites, 447; colgate number of deaths was: Whites, 44/; colored, 231. The report will give in detail an account of the operations of the surgical division, and a medical statement of the casualties in the fourteen engagements between United States troops and Indians during the last fiscal year. The report will also show that there were fill new specimens added to the medical year. The report will also show that there were 611 new specimens added to the medical museum during the year; that twenty-five assistant surgeons were promoted, and thirteen candidates for appointment examined and passed. The number rejected aggregates about thirty-one. There are two vacancies in the list of regular surgeons. Fourteen men are on sick leave, eight of whom are incapacitated for service. Six are on regular leave and 154 are on duty. There have been during the year 5,500 new volumes and pamphlets the year 5,500 new volumes and pamphlets added to the medical library, which now includes 49,000 volumes and over that number

Carl Eckert, the composer and conductor of the royal orchestra at Berlin, is dead. A party of French agriculturists, number seventy-nine men, women and children, have left Havre for Southampton on their way to

A few nights ago a hurricane in souther

Spain was accompanied by heavy rains, which overflowed the rivers Mundo and Segura, and flooded the populous and fertile valley which they water. The cities of Lorca, Orihuela, Murcia and Crevillente, and a large number of villages between Murcia, Alicante and Cartagena, were more or less injured. The rivers suddenly rose several yards during the night, and the inbabitants were compelled to fly without saving any property. The streams were covered with wrecks of farm-houses, agricultural implements, dead cattle and some human corpses. The churches and public buildings were occupied by thousands of fugitives. The same storm also partially flooded Malaga, and interrupted telegraph and railway communi-cation as far as Huelya and Seville. One hundred and nincteen corpses have been recovered. Four villages are in ruins and thousands

the interior; Cadri, minister of commerce; Aarif, president of the council; Kdid, minister Again, president of the Country, of justice, and of finance; Djevdet, minister of justice, and Soubhi Vakoufs Safvet, director-general of return of the purest, finest, richest and most durable the purest, finest, richest and most durable forms and chief or inspectors, with the right of communicating directly with the Sultan. Meanwhile, as explained in a letter from Constantinople, the Sultan remains stubbornly op-posed to reforms such as would give Christians the same civil rights as Mahometans enjoy. I'his is ascribed to the teachings of the Koran, which the Sultan must, at his peril, respect. An explosion in a powder magazine at Cabul killed twenty-seven English soldiers and many Afghans. In the attack on the British camp at Ali Kheyl four thousand Atghans were reulsed at the point of the bayonet, leaving on ed and two standards. The British pursued them two miles. The British loss was two killed and fourteen wounded. The combined frontier tribes are retreating. Ameer Yakoob Khan has announced his determination to ab-

One of the cashiers of the French treasury department in Paris, on being informed of a serious error in some of the accounts, rose hastily and quitted his bureau, leaving an open cash-box containing, in notes of 20, 25, 100 and 1,000 francs, the sum of 136,665 francs. He was not away three minutes, and his two subordinates never left the room in his absence, yet on his return he found the cash-box empty. It is supposed that an agile thief slipped through the crowd, and creeping in a stooping position behind a partition, got within reach of the cash-box and secured its contents. It is hought that the only person who could have committed the theft was a man of strikingly handsome appearance, wearing a white waistcoat and an unmis-takable air of distinction, who was seen about the place. The feelings of this elegant personage on reaching home and examining his plunder might form a subject for novelists. All the notes he had captured were condemned as worn out and destined to be withdrawn from circulation. Every one was stamped with the words which cancel a French
